EMPLOYEE SPENDING ACCOUNTS HEALTH SPENDING ACCOUNTS

Health Spending Accounts (HSA) are a non-taxable benefit that allows you to reimburse health expenses not covered by your Group Benefits Plan or government programs, and helps with co-insurance payments, deductibles, and amounts in excess of health and dental plan limits.

Employers specify the pre-tax credit to be available to your employees. Employees use the credits toward medical expenses that meet the eligibility of the CRA.

PERSONAL WELLNESS ACCOUNTS

Personal Wellness Accounts (PWA) allow you to address employee health and wellness needs at a holistic level, providing support for physical health, mental and emotional health, career health, and quality of life. You choose from the following categories, available in any combination:

- Health & Wellness Support
- Fitness & Sports Activities & Equipment
- Insurance Premiums
- Family Care
- Supplements & Meal Replacement
- Other Medical
- Green Living
- General Lifestyle
- Alternative Health Treatments
- Recreation & Leisure
- Personal Development
- Productivity & Other

You determine the amount of credit to be allocated to the employee's account. Your employees use the credits toward expenses related to maintaining and enhancing health and wellness. The CRA defines the majority of PWA expenses as taxable benefits.

ONLINE DOCTORS BY MAPLE

- Support your employees' health and wellbeing with best-in-class virtual care
- Online Doctors connects plan members and their families with Canadian-licensed general practitioners online in five minutes or less, anytime, anywhere
